FOREWORD

This report is one of a series of provincial reports on the results of the 1980 Census of Population and Housing conducted on May 1, 1980.

Demographic data presented herein consist of population distributions according to age, sex, marital status, highest grade completed and literacy. Other bases as gainful occupation, industry and migration are included likewise.

In the other aspect of the census, the following housing characteristics are considered: type of building, structural characteristics, floor area, type of tenure, use and source of water supply, lighting, type of toilet facilities, kind of cooking fuel used and appliances.

Subsequent issues will be the National Summary (Volume II) containing summary data on the final provincial reports and the Special Volume on National Capital Region (Metro Manila Area) which will cover data on the social, economic and demographic characteristics of the region.

Grateful acknowledgment is due the National Census Coordinating Board, government agencies, committees and the local coordinating boards for their invaluable assistance and cooperation.

TITO A. MIJARES

DETAILED TABLES

POPULATION TABLES

1. Population Enumerated in Various Censuses: 1903-1980	1
2. Population By Single-Year Age Classification and Sex, Urban-Rural: 1980	2
3. Population By Age Group, Sex and Municipality, Urban-Rural: 1980	4
4. Population 10 Years Old and Over By Age Group, Sex, Marital Status and Municipality, Urban-Rural: 1980	8
5. Private Household Population 7 Years Old and Over By Highest Grade Completed, Age, Sex and Municipality: 1980	37

6.	Literacy of Private Household Population 10 Years Old and Over By Age Group, Sex and Municipality, Urban-Rural: 1980	63
7.	Language or Dialect Generally Spoken in Private Households By Municipality, Urban-Rural: 1980	71
8.	Private Household Population 15 Years Old and Over By Gainful and Non-Gainful Occupation, Marital Status and Sex, Urban-Rural: 1980	72
9.	Gainful Workers 15 Years Old and Over of Private Households By Major Occupation Group, Major and Minor Industry Groups and Sex, Urban-Rural: 1980	74
10.	Present Residence of Private Household Population 5 Years Old and Over By Place of Residence on May 1, 1975, Sex and Municipality, Urban-Rural: 1980	92

HOUSING TABLES

1.	Number of Households in Occupied Dwelling Units By Type of Building, Type of Occupancy and Municipality, Urban-Rural: 1980	95
2.	Number of Households in Occupied Dwelling Units By Year Built, Construction Materials of Roof and Outer Walls, Urban-Rural: 1980	99
3.	Number of Households in Occupied Dwelling Units By Type of Building, Floor Area and Municipality, Urban-Rural: 1980	101
4.	Number of Households in Owner-Occupied Dwelling Units By Type of Building, Tenure of the Owner-Occupant with Respect to the Land and Municipality, Urban-Rural: 1980	111
5.	Number of Households in Occupied Dwelling Units By Kind of Lighting and Municipality, Urban-Rural: 1980	119
6.	Number of Households in Occupied Dwelling Units By Use and Source of Water Supply and Municipality, Urban-Rural: 1980	120
7.	Number of Households in Occupied Dwelling Units By Type of Toilet Facilities and Municipality, Urban-Rural: 1980	129
8.	Number of Households in Occupied Dwelling Units By Kind of Cooking Fuel and Municipality, Urban-Rural: 1980	130
9.	Number of Households in Occupied Dwelling Units with Household Appliances By Municipality, Urban-Rural: 1980	131

APPENDICES

D	PH Form 3 – Sample Private Household Questionnaire	137
E	PH Form 4 – Collective Household Questionnaire	139

Explanatory Text

GENERAL

INTRODUCTION

The National Census and Statistics Office conducted in May 1980, the 1980 Census of Population and Housing. This type of Census was also undertaken in May 1970. In May 1975 the Census of Population was taken as Phase I of the 1975 Integrated Census of the Population and Its Economic Activities. This nationwide undertaking was designed to obtain comprehensive data on the size, distribution, structure, change and socio-economic characteristics of the population and to take inventory of the housing accommodations, their geographic location, structural characteristics, available facilities, etc.

The population report contains data gathered from private households as well as collective households, while data on housing were collected from private households only.

It should be emphasized at this point that a complete enumeration of all households throughout the country was made but only sample household questionnaires representing 20 percent of the listed households were processed and the data published in this volume. In so doing, however, the total population count by barangay, male and female, obtained from the listing sheet taken simultaneously during the enumeration was maintained in computing the weights or expansion factors. It should also be noted that data on Tables 1 to 4 of the population tables refer to total population, that is, the population of the private households plus the collective households while Tables 5 to 10 cover exclusively the private household population.

Pursuant to the provision of Batas Pambansa Bilang 72, a final count of the population, by sex at barangay level was submitted to the President and was approved under Proclamation No. 2170 dated March 12, 1982. This report was published separately in 74 provincial volumes.

AUTHORITY FOR THE 1980 CENSUS

Under Commonwealth Act No. 591, the National Census and Statistics Office is authorized "to prepare for and undertake all censuses of population, agriculture, industry and commerce."

It may be mentioned in this regard that sometime in February 1980 Parliamentary Bill No. 809 was presented at the Batasang Pambansa, providing for the taking of an integrated census every ten years beginning 1980, with May 1 of every census year as the reference date. This bill was approved into Batas Pambansa Bilang 72 on June 11, 1980, more than one month after the start of enumeration.

INTER-AGENCY PARTICIPATION

The expertise and technical advice of the National Economic and Development Authority Inter-Agency Committee on Population and Vital Statistics and its Technical Working Group on 1980 Census of Population and Housing played a vital role in the successful undertaking of the census.

The Committee's main function was to review the questionnaire, methodologies, concept, tabulation and other related aspects of the census in the production of data and development of systems that would produce more reliable and accurate result. It had for its chairman the Dean of the University of the Philippines Population Institute (UPPI) and for its members, one representative each from the Ministries of Human Settlements (MHS), National Defense (MND), Education and Culture (MEC), Health (MOH) and Local

EXPLANATORY TEXT

Government and Community Development (MLGCD); the Commission on Population (POPCOM); National Economic and Development Authority (NEDA); and two representatives from the National Census and Statistics Office (NCSO). The Technical Working Group (TWG) for the 1980 Census of Population and Housing was headed by the Chief of the National Census and Household Surveys Department of NCSO and the members were representatives from the MHS, EPRS-NEDA, SCO-NEDA, POPCOM, UPPI, MOH, MEC, and the National Housing Authority (NHA).

Recommendations were likewise solicited from other government agencies for questions that should possibly be included in the population and housing portions in order to fill their data needs.

As early as August 1977, an NCSO Technical Committee for censuses was created. Ranking officials of the National Census and Statistics Office comprised the committee, with the Assistant Executive Director as Chairman, the Chief of the National Census and Household Surveys Department (NCHSD) as Vice-Chairman and Heads of six other departments and staff offices as members.

The committee coordinated with the Inter-Agency Committee and TWG of the NEDA on the technical aspect of the census and rendered a monthly progress report to the Executive Director. It provided the overall direction of the activities of the different subcommittees on census. The two subcommittees created, the Sub-Committee on Population and Housing Census and the Sub-Committee on Operations and Logistics Support, were directly charged with the preparatory work for the census undertaking.

CENSUS BOARDS

A systematized involvement of government agencies and instrumentalities was made possible largely through the concerted efforts of the members of the National Census Coordinating Board (NCCB) and the Provincial, City and Municipal Census Boards. The national board was created by NEDA Memorandum Order No. 4-80, dated April, 1980 and the local boards, by Memo Order No. 5-80, dated April 1, 1980, by virtue of the powers vested in the Minister of Economic Planning under Section 3 of Presidential Decree No. 1200.

The NCCB was headed by the Minister of Economic Planning as Chairman with the Executive Director as Executive Officer. Named as members were the Ministers of Agriculture, Budget, Education and Culture, Finance, Human Settlements, Public Works, Justice, Labor, Local Government and Community Development, National Defense, Natural Resources, Public Highways, Public Information and Transportation and Communication. Rules and regulations necessary for the successful undertaking of the census were issued by the Board.

At the local government level, similar functions were carried out by the Provincial City and Municipal Census Boards. The Provincial Governor headed the Provincial Census Board while the Division Superintendent of Schools was Vice-chairman. Members were the Highway District Engineer, Provincial Auditor, Provincial Commander of the Philippine Constabulary, the Provincial Development Officer and the Provincial Agriculturist. The City Census Board was composed of the City Mayor as Chairman; City Superintendent of Schools, Vice-chairman; and the City Engineer, City Assessor and City Development Officer, members. Finally, the Municipal Census Board had for its Chairman the Municipal Mayor and ably assisted by the District Supervisor as Vice-chairman. The members were the Municipal Agriculturist, Station Commander, Municipal Treasurer and the Municipal Development Officer.

EXPLANATORY TEXT

For each of these local census boards, the Provincial Census Officer, City Census Officer and the Municipal Census Officer were designated Executive Officer of their respective Board.

CENSUS ORGANIZATION

The overall direction and instructions for the census undertaking emanated from the Executive Director of the National Census and Statistics Office or in his absence, the Assistant Executive Director.

Assisted by the Task Force from the Central Office and in coordination with the local census boards, the Regional Census Officers and the Provincial Census Officers directly supervised the field operations in their respective areas. The services of District Supervisors, Head Teachers and elementary school teachers from public schools were utilized as City/Municipal Census Supervisors, Team Supervisors and Enumerators in that order.

During the field operations, the 1980 Census Operations Center under the overall supervision of the National Census and Household Surveys Department Chief, was the operating body that monitored the overall operations. Lending support to the center were the Administrative and Fiscal Services Staff.

METHOD OF ENUMERATION AND USE OF SAMPLING

The household was used as the enumeration unit and a complete listing of dwelling units, including vacant ones, was done.

A combination of complete enumeration and sampling was adopted. While all households were asked on the count of the population and housing characteristics, only twenty percent (20%) were asked on other characteristics. The selection of sample households was done systematically with a random start from a listing of households which was prepared simultaneously with the enumeration.

Using PH Form 2 (Common Private Household Questionnaire) and with an 80 percent coverage, the items asked on population were household membership, relationship to head, line number of mother, sex, date of birth, age as of last birthday and marital status. For the housing items, the type of building and the construction materials of roof and outer walls, number of rooms, floor area of the dwelling unit and the year the building was built were asked.

In addition to the population and housing items just mentioned, additional information were asked using PH Form 3 (Sample Private Household Questionnaire) from the 20 percent samples such as *language or dialect generally spoken at home, citizenship, usual residence of mother at person's birth, residence of person in 1975, ability to speak Pilipino and English, school attendance, highest grade completed, literacy, economic activity of the person, place of schooling or work, fertility, nature of occupancy of the dwelling unit and housing facilities and conveniences.*

Collective households were enumerated using PH Form 4, where the information asked were the same as those in PH Form 2, excluding housing items.

PLACE WHERE ENUMERATED

All persons were enumerated in their usual place of residence, which is the geographic place (street, barangay, sitio, municipality or province) where the enumerated person usually resides. As a rule, it is the place where he usually sleeps; therefore, it may be the same as or different from the place where he was found at the time of the census.

EXPLANATORY TEXT

POST ENUMERATION SURVEY

Originally the plan was to conduct a Post Enumeration Survey covering the whole country. For lack of funds the survey had to be confined to Metro Manila. Its purpose was to determine the extent of underenumeration or overenumeration in the 1980 Census of Population and Housing.

A sample of 132 barangays was selected. However, in 59 barangays which were divided into two or more enumeration areas (EAs), an enumeration area was chosen as sample.

A complete listing was made of households in the sample barangays/EAs using PH Form 1-B. Twenty percent of these households were selected as sample households and interviewed using PH Form 2, which was the same questionnaire used for non-sample households during the main enumeration. The housing portion of this form was disregarded.

CONTENT AND COVERAGE OF THE PUBLICATION

In this publication, the population and households were described according to the respective items listed below:

Population Items	Housing Items
Age	Type of Building
Sex	Type of Occupancy
Marital Status	Construction Materials of Roof and Outer Walls
Highest Grade Completed	Year Built
Literacy	Floor Area of Dwelling Unit
Language/Dialect Spoken in the Household	Tenure of Owner-Occupant with Respect to the Land
Gainful and Non-Gainful Occupation	Kind of Lighting Facilities
Major and Minor Industry	Use and Source of Water Supply
Migration	Type of Toilet Facilities
	Kind of Cooking Fuel
	Household Appliances

The above items are presented in the ten population tables and nine housing tables of this report.

Except for figures on total population and sex, all other characteristics were based on a 20 percent sample.

Aside from these published tables, 10 other tables on the above characteristics plus 6 statistical tables dealing on ever-married women 15 years old and over are also available to statistical users.

DEFINITION OF TERMS AND CONCEPTS

I – POPULATION

BARANGAY

A barangay is the smallest political unit in the country and generally its enumeration is

EXPLANATORY TEXT

assigned to one enumerator. For enumeration purposes, a large barangay is usually split into parts and each part is called an enumeration area (EA).

ENUMERATION AREA

An enumeration area (EA) is a delineated area assigned to one enumerator, usually consisting of about 300 households. A barangay or part of a barangay may have been designated as an enumeration area.

URBAN AND RURAL AREAS

The same concepts used in the 1970 and the 1975 Censuses were followed in classifying areas as urban. According to these concepts, urbanized areas consist of:

1. In their entirety, all cities and municipalities having a population density of at least 1,000 persons per square kilometer.
2. Poblaciones or central districts of municipalities and cities which have a population density of at least 500 persons per square kilometer.
3. Poblaciones or central districts (not included in 1 and 2), regardless of the population size, which have the following:
 - a. Street pattern, i.e., network of streets in either parallel or right-angle orientation;
 - b. At least six establishments (commercial, manufacturing, recreational and/or personal services); and
 - c. At least three of the following:
 - 1) A town hall, church or chapel with religious services at least once a month;
 - 2) A public plaza, park or cemetery;
 - 3) A market place or building where trading activities are carried on at least once a week;
 - 4) A public building like a school, hospital, puericulture and health center or library.
4. Barangays having at least 1,000 inhabitants which meet the conditions set forth in 3 above, and where the occupation of the inhabitants is predominantly non-farming or fishing.

All areas not falling under any of the above classifications are considered rural.

PERSONS ENUMERATED IN A PRIVATE HOUSEHOLD

The following were counted and enumerated as members of the household:

1. Persons whose usual place of residence is the place where the household lives and present at the time of visit of the enumerator, except those born after 12:01 A.M., May 1, 1980;
2. Persons whose usual residence is the place where the enumerated household lives, but temporarily away at the time of enumeration, such as:
 - a. persons temporarily away on vacation, business or pleasure trip or any other purpose in the Philippines who are expected to be back within six months,

EXPLANATORY TEXT

- or within one year, if abroad;
 - b. students who usually go home to their respective households at least once a week;
 - c. persons working elsewhere who usually go home to their respective households at least once a week;
 - d. patients confined in hospitals for not more than six months at the time of enumeration of the household, except those confined (1) as inmates (not patients in wards for temporary confinement) in tuberculosis pavilions; (2) in mental hospitals; (3) in leprosaria or leper colonies; and (4) in rehabilitation centers for drug addicts;
 - e. trainees in the Armed Forces of the Philippines, if their training is not more than six months;
 - f. convicts and detainees in provincial or municipal/city jails or military camps, who have been confined for not more than 6 months at the time of enumeration of the household, except those who have been sentenced for more than 6 months (including those whose sentence is on appeal), even though just confined; and
 - g. officers and crew members of coastal, interisland, or fishing vessels; officers and crew members of ocean-going vessels who usually go home to their household at least once a year.
3. Boarders of the household who are working, looking for work or studying, and who do not go home at least once a week;
 4. Employees of household-operated enterprises who eat and sleep with the household and who do not go home at least once a week;
 5. Persons (other than those in "3" and "4") whose usual place of residence is elsewhere, but who have been away from their usual place of residence for more than 6 months;
 6. Members of the Armed Forces of the Philippines including draftees, sleeping most of the nights with the household, except those who only board or lodge with the household and who usually go home at least once a week; in such a case, they will be enumerated in their own household;
 7. Persons found in the household who have no usual place of residence elsewhere;
 8. Persons found in the household who are not certain of being enumerated elsewhere;
 9. Persons who consider the dwelling unit of the household as their usual place of residence but are living within the premises of a foreign embassy, ministry, legation or consulate, including non-Filipino employees who have been residents of the Philippines before such employment;
 10. Citizens of foreign countries and Filipinos (balikbayan) who have resided or expect to reside in the Philippines for more than one year from arrival;
 11. Persons who sleep in the same dwelling unit but may not be able to take all or some of their meals with the household because of the nature of their work or other similar reason (they take their meals at place of work, etc.), should be considered as part of the household; and
 12. A household member who is alive as of 12:01 A.M., May 1, 1980, but dies prior to the enumeration of the household.

EXPLANATORY TEXT

PERSONS TOTALLY EXCLUDED FROM THE ENUMERATION

Totally excluded from the population count of the Philippines were:

1. Foreign ambassadors, ministers, consuls or other diplomatic representatives, and members of their households (except Filipino employees and non-Filipino employees who had been residents of the Philippines prior to said employment);
2. Citizens of foreign countries living within the premises of an embassy, legation, chancellory or consulate;
3. Officers and enlisted men of U.S. Military or Naval Forces and non-Filipino members of their households, irrespective of residence; foreigners who are civilian employees in U.S. military or naval stations and member of their families living within the premises of said stations or reservation; (Note: for foreigners who are civilian employees of said stations living outside the station or reservation, see Item 5).
4. Citizens of foreign countries who are Chiefs and officials of international organizations like UN, ILO or USAID, who are subject to reassignment to other countries after their tour of duty in the Philippines, and members of their families;
5. Citizens of foreign countries together with non-Filipino members of their families, who are students or who are employed, or have business in the Philippines and have been in the Philippines or expect to stay in the country for one year or less from arrival;
6. Citizens of foreign countries and Filipinos with usual place of residence in a foreign country, who are visiting in the Philippines and expect to stay in the country for one year or less from arrival (e.g. a *balikbayan* who will return to his usual place of residence abroad after a short vacation or visit in the Philippines);
7. Citizens of foreign countries in refugee camps/vessels; and
8. Residents of the Philippines on vacation, pleasure or business trip, etc. abroad, who have been away or expected to be away from the Philippines for more than one year from departure.

USUAL PLACE OF RESIDENCE

The term refers to the geographic place (street, sitio, barrio/barangay, municipality or province) where the enumerated person usually resides. As a rule, it is the place where he sleeps most of the time; hence, it may be the same as or different from the place where he was found at the time of the census.

HOUSEHOLD

A household usually consists of a group of persons who sleep in the same dwelling unit and have common arrangements for the preparation and consumption of food. A person who lives alone is considered as one separate household. Although in most cases a household consists of a related family group, some household members may have no relationship to the central group. Boarders and servants, for instance are counted as part of a particular household if they take their meals with the household and sleep in the same dwelling unit. Persons who sleep with a household but individually cook their meals or eat elsewhere are each considered as single-person household.

EXPLANATORY TEXT

Three generations may be living in one dwelling unit. If they are divided into two or more groups whose eating arrangements are independent from each other, each group is counted as a separate household.

PERSONS NOT LIVING IN HOUSEHOLD

Falling under this category are persons living in collective living quarters such as welfare institutions (orphanages and homes for the aged or infirm); penal and corrective institutions (jails, national penitentiary, and reformatory institutions); hospitals, sanatoria, leprosaria, and nurses homes; dormitories and boarding schools; lodging houses such as hotels, tourist homes and the like; military camps and others.

Most of these institutions house inmates for whom care or custody is provided by resident staff members, or persons residing in group quarters or in housing units on the institutional grounds.

Private families living within such institutions, however, are excluded from the classification, as well as persons (employees, students, etc.) who go home to their families on weekends or days off. Persons found in lodging houses, but who are on vacation or business trips and whose absence from home does not exceed six months on the day of enumeration, are likewise not counted as part of the institutional population.

RESPONDENT

A respondent is any responsible adult member of the household who furnished the information or answers to questions during the interview.

LANGUAGE/DIALECT GENERALLY SPOKEN IN THE HOUSEHOLD

This refers to the language or dialect spoken most of the time by members of the household. In cases where two or more languages/dialects are spoken by household members, the one most often used in conversations among members of the family of the head when most of them are gathered together is considered as the language/dialect generally spoken in the household.

HEAD OF HOUSEHOLD

The person responsible for the care and organization of the household is generally considered as the head of the household. He usually provides the chief source of income for the household.

In the case of a household consisting of two or more unrelated persons sharing a dwelling unit and sharing the same cooking facilities and meals, the head is usually the eldest male or female in the group regarded as such by the other members.

RELATIONSHIP TO HEAD OF HOUSEHOLD

This determines how each household member is related to the head, who is usually the husband or father, although in his absence or if incapacitated, the wife may be designated as head.

1. Spouse — a woman/man married to and living with the head. This includes legal marriages as well as common-law relationships.
2. Son/daughter — the head's own child, stepchild, or adopted child.

EXPLANATORY TEXT

3. Son-in-law/daughter-in-law — refers to a household member related to the head by marriage to his daughter or son.
4. Grandson/granddaughter — child of the son or daughter of the head.
5. Other relative — a household member related to the head by blood, marriage, or adoption. Father, mother, aunts, nephews, parents-in-law and cousins are examples.
6. Others — any person in the household who is usually a non-relative of the head. Boarders and servants fall under this category. Certain members of the household who are related to the head by blood or affinity, but are actually boarders or servants in the household, are classified under "Others".

For collective households and group quarters, the question on relationship refers to the person's relationship to the institution or establishment, and not to the person recorded as head.

AGE AND DATE OF BIRTH

Data on the age of the population were obtained by asking the respondent the month and year of birth and the age itself of the household member before May 1, 1980. To ensure accuracy, a conversion table on age before May 1, 1980 was prepared for the use of enumerators, editors/coders and verifiers.

MARITAL STATUS

This refers to the civil status of all persons 10 years old and over. A person in this age group is classified as single, married, widowed, separated or divorced, or civil status unknown, based on the following definitions:

- a. Single — If never been married.
- b. Married — Legally married or living consensually with husband/wife without benefit of a legal marriage. A person classified as "married" includes one who remarried after having been widowed, separated or divorced or one temporarily separated from spouse owing to the nature of work, illness or service in the Armed Forces.
- c. Widowed — A person whose spouse died and who has not remarried at the time of enumeration.
- d. Separated — If permanently separated from spouse either legally or otherwise, due to marital discord.
- e. Divorced — If bond of matrimony has been dissolved through a court decree and is therefore free to remarry.
- f. Unknown — If civil or marital status is either not known to the respondent, or the respondent himself refuses to reveal the marital status of such person.

CITIZENSHIP

Citizenship is defined as the legal nationality of a person. A citizen is a legal national of the country of the census; an alien is a non-national of the country.

LITERACY

A person is considered literate if he is able to read and write a simple message in any language or dialect.

EXPLANATORY TEXT

HIGHEST GRADE COMPLETED

This has reference to the specific grade or year completed in elementary school, high school, college or university, by persons 7 years of age and over. Academic degree holders are classified according to the title of the degree received or the major field of study undertaken.

USUAL OCCUPATION

This refers to the specific job or kind of work that a person, who works most of the year, is usually pursuing, or if unemployed at the time of enumeration, it is the kind of work he used to do most of the year. A person is considered as usually working most of the year if he works for at least 10 hours a week for 26 weeks either for pay in cash or in kind, for a fee or profit in own farm, business or establishment or practice of a profession and without pay on family farm or enterprise. This particular group of workers is referred to as gainful workers.

For persons who do not work most of the year, the usual occupation relates to the non-gainful activities they usually do most of the year. Among such persons are housekeepers, students, pensioners, retired and disabled. However, a person who is housekeeping or schooling and also works in a gainful activity was reported as gainfully employed, even if more time was spent housekeeping or studying, as the case may be.

INDUSTRY

Industry refers to the specific character and nature of business or industry or the place where the work is being performed in connection with the job or occupation reported for a person.

EVER-MARRIED WOMAN

This refers to a woman who has already entered married life. Marriage here may either be legal or consensual union. At the time of enumeration the ever-married woman may still be married, or already widowed, separated or divorced.

II – HOUSING

BUILDING

A building is any independent free-standing structure comprising one or more rooms or other spaces, covered by a roof and enclosed within external walls or dividing walls with adjacent building which usually extend from the foundation to the roof. It usually contains one or more rooms internally connected with one another. A building therefore, is any structure intended for dwelling, storage, factory, shelter or for some other useful purposes.

For purposes of the 1980 Census of Population and Housing, only the following buildings were listed and assigned building serial numbers:

- a. A house or any kind of building or shelter where people were actually living;
- b. A residential building (house, apartment or accessoria, condominium) that was vacant;

EXPLANATORY TEXT

- c. Hotel, motel, lodging house, dormitory or camp (construction, logging, mining, etc.) in operation;
- d. A commercial, office, industrial, agricultural or other kinds of buildings with one or more dwelling units (containing a kitchen/kitchen-dining room, living room and a bedroom, and with separate entrance) which were all vacant.

The different types of buildings are:

1. **Single house** — a complete structure intended for one household. It includes the so-called “nipa hut” or a small house that is built as a more or less permanent dwelling unit.
2. **Duplex** — a structure intended for two households, with complete living facilities for each. It is divided either vertically or horizontally into two separate dwelling units which are usually identical.
3. **Apartment/accesoria/condominium/row house**

An apartment is a structure usually of several stories, made up of three or more independent entrances from internal halls or courts. It differs from an accesoria in that an apartment has one common entrance from the outside.

An accesoria is usually a one or two-floor structure divided into three or more dwelling units, each dwelling unit having its own separate entrance from the outside. Another name for accesoria is row house.

A condominium is usually a high-rise building where the dwelling units are owned individually but the land and other areas and facilities are owned in common.

4. **Improvised (barong-barong)** — a makeshift or roughly constructed house usually built with salvaged materials.
5. **Commercial/industrial/agricultural** — buildings not intended for human habitation but used as dwelling units at the time of the census.

Commercial — a building used for transacting business or rendering professional services, such as a storage or an office building.

Industrial — a building used for processing, assembling, fabricating, finishing, *manufacturing or packaging operations, such as a factory or a plant.*

Agricultural — any structure used for agricultural purposes, such as a barn, warehouse, rice mill, etc.

6. **Other housing unit (natural shelter, boat, etc.)**

This refers to living quarters which are not intended for human habitation nor located in permanent buildings but which are, nevertheless, used as living quarters at the time of the census. Caves, other natural shelters and mobile housing units such as trailer, barge, boat, etc., fall within this category.

7. **Hotel, lodging house, dormitory, etc.** — This group comprises permanent structures which provide lodging and/or meals on fee basis. Hotels, motels, inns, boarding houses, dormitories, pensions and lodging houses fall within this category.
8. **Institutional (hospital/convent/school dormitory/penal institution, etc.)** — a building intended for persons confined to receive medical, charitable, or other care treatment such as jails and penal colonies, and other buildings like convents, school dormitories, etc.
9. **Other collective living quarters** — any structure or shelter which does not fall under items 7 and 8. Included in this category are camps which are defined sets of

EXPLANATORY TEXT

premises originally intended for the temporary accommodation of persons with common activities or interests like military camps, and other camps established for the housing of workers in mining, agriculture, public works or other types of enterprises.

DWELLING UNIT

A dwelling unit is a separate and independent place of abode intended for habitation by one household, or one not intended for habitation but occupied as living quarters by a household at the time of the census.

Dwelling units counted included those that are occupied and those that are unoccupied.

CONSTRUCTION MATERIALS OF ROOF

The kinds of materials used are as follows:

1. Galvanized iron/aluminum
2. Tile/concrete/brick/stone
3. Asbestos
4. Cogon/nipa
5. Makeshift/salvaged materials
6. Others (anahaw, etc.)

CONSTRUCTION MATERIALS OF OUTER WALLS

The kinds of materials may be any of the following:

1. Galvanized iron/aluminum
2. Tile/concrete/brick/stone
3. Wood/plywood
4. Mixed tile/concrete/brick/stone and wood/plywood
5. Asbestos
6. Bamboo/sawali
7. Cogon/nipa
8. Makeshift/salvaged materials
9. Others (anahaw, etc.)

If the roof or outer walls are constructed of two or more materials the material most used was reported.

YEAR BUILDING WAS BUILT

This refers to the year when the extent of construction permitted occupancy for living purposes. The year reported was the particular year when the occupancy started or when the building was fit for occupancy even if not occupied.

NUMBER OF ROOMS IN THE DWELLING UNIT

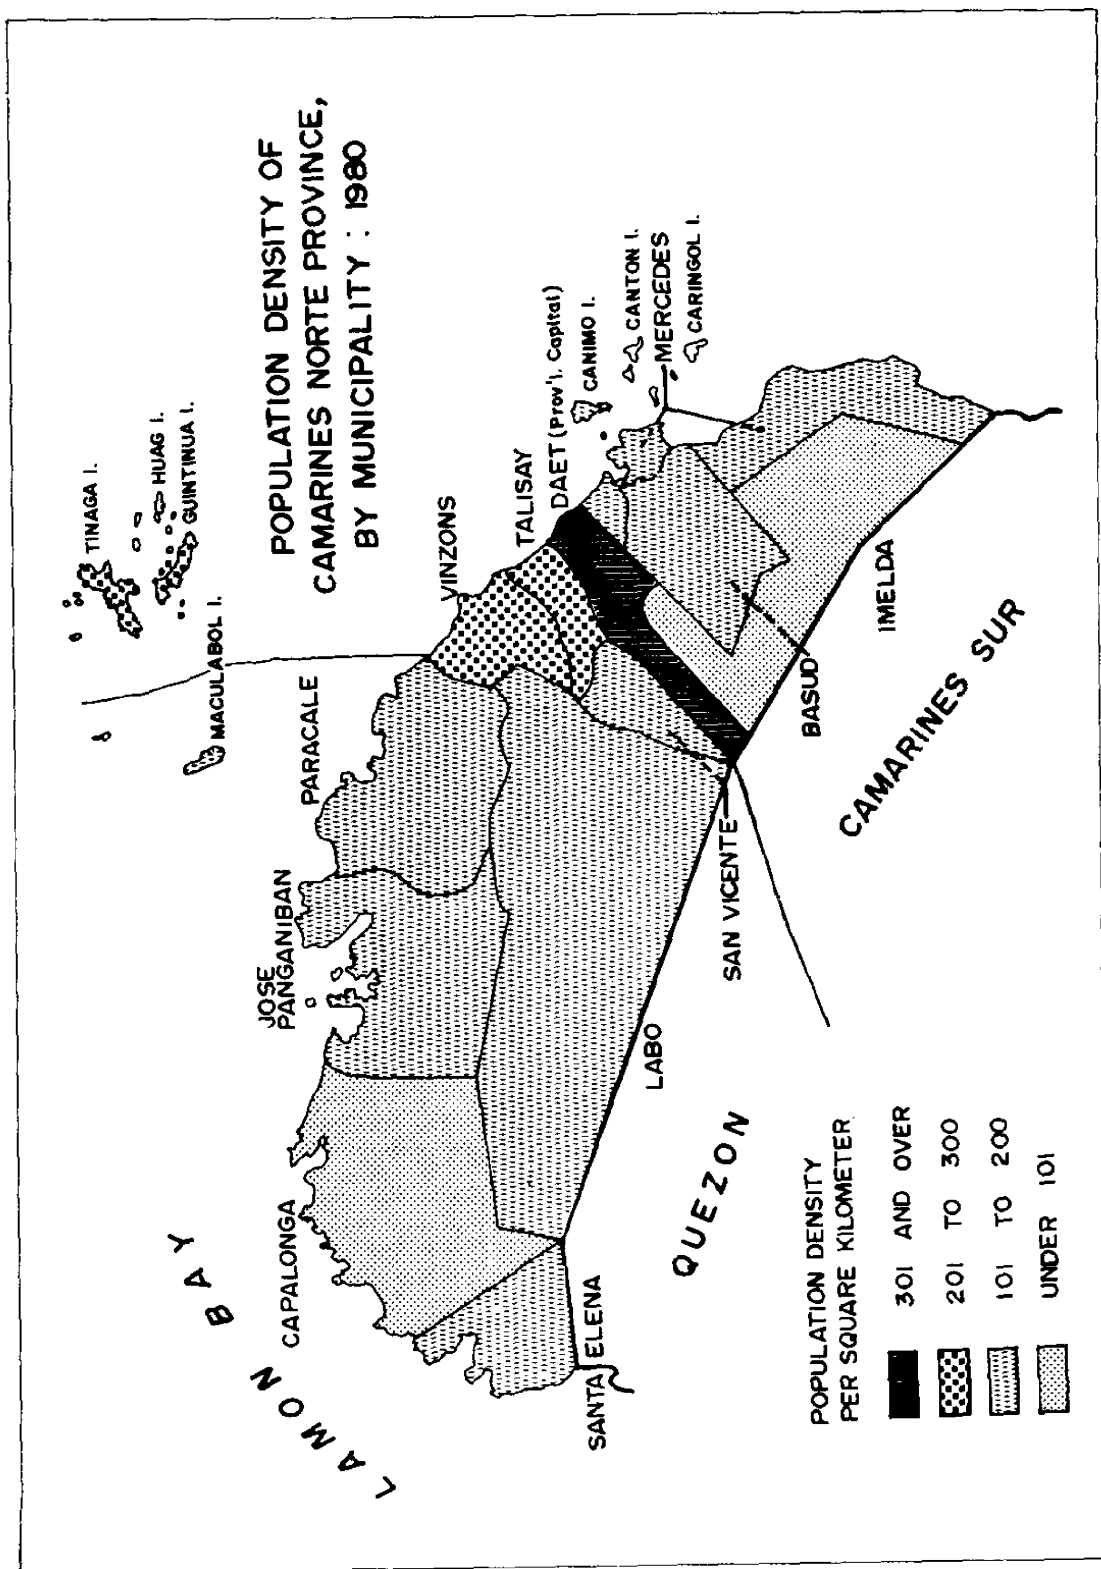

A room is defined as a space in a dwelling unit or other living quarters enclosed by walls reaching from the floor to the ceiling or roof covering, or at least to a height of 1.8 meters which are of permanent or semi-permanent structure, of a size large enough to hold a bed for an adult or at least has an area of 3 square meters.

EXPLANATORY TEXT

The total number of rooms reported included the bedrooms, dining room, living room, kitchen, roofed veranda, library or music room and other separate spaces used or intended for dwelling purposes, as long as they meet the criteria of walls and floor space. Passageways, lobbies, bathrooms and toilets or rooms used exclusively as store/shop/clinic/grains storage (nobody sleeps therein) were not counted as rooms even if they meet the criteria.

FLOOR AREA OF DWELLING UNIT

This refers to the space enclosed by the exterior walls of the dwelling unit, or the space measured inside the outer walls of the spaces that are counted as rooms. In case of several floors, the area of each floor in square meters was taken and added together to get the total floor area of the dwelling unit. Areas of floor spaces that are not considered rooms such as bathroom, toilet, storeroom, passageway were excluded in determining the floor area.

Camarines Norte: A Brief Analysis

Camarines Norte, the northernmost province of the Bicol Region, appears on the map like a hump with its base astride Camarines Sur and Quezon. After a series of divisions and fusions with its sister province, Camarines Sur, which together constituted Ambos Camarines, Camarines Norte was created a separate province in March 1919. Its provincial boundaries are defined by Lamon Bay and the Pacific Ocean on the north, and Camarines Sur and a portion of Quezon on the south. Its southeastern tip, along with Camarines Sur, encompasses San Miguel Bay.

The province has a land area of 2,112.5 square kilometers, representing 0.7 percent of the total land area of the country. The provincial terrain is generally hilly and mountainous, except for the fertile plains and valleys along the coast.

In the 1960 census the province was composed of 10 municipalities. With the creation of the municipalities of Santa Elena on June 21, 1969 and Imelda on November 8, 1970, the number of municipalities increased to 11 and 12 respectively, in the 1970 and 1975 censuses. Twelve municipalities still compose the province with Daet as the capital.

POPULATION

As registered in the 1980 census, the population of Camarines Norte stood at 308,007 (males — 157,706; females — 150,301). If the population were evenly distributed over its land area, each square kilometer would be occupied by 145.8 persons, or an increase of 9.3 persons per square kilometer since 1975. The 1980 proportion of urban population rose to 28.90 percent from 24.52 percent in 1975 as a result of which the rural population declined from 75.48 percent to 71.10 percent. The proportion of male urban residents to total male population increased from 23.55 percent to 27.91 percent, or an increase of 4.36 percentage points from the previous proportion. The same trend applied to the female population with the proportion of urban residents increasing from 25.54 percent to 29.95 percent and that of rural residents decreasing from 74.46 percent to 70.05 percent (Table 2).

A BRIEF ANALYSIS

The comparative figures below show the urban-rural distribution of the population by sex for 1980, 1975 and 1970:

**TABLE A – URBAN-RURAL POPULATION BY SEX,
CAMARINES NORTE: 1970, 1975 AND 1980**

Area Classification and Sex	1980		1975		1970	
	Number	Percent	Number	Percent	Number	Percent
Total	<u>308,007</u>	<u>100.00</u>	<u>288,406</u>	<u>100.00</u>	<u>262,207</u>	<u>100.00</u>
Male	157,706	51.20	148,611	51.53	133,805	51.03
Female	150,301	48.80	139,795	48.47	128,402	48.97
Urban	<u>89,025</u>	<u>28.90</u>	<u>70,698</u>	<u>24.52</u>	<u>68,189</u>	<u>26.00</u>
Male	44,012	14.29	35,001	12.14	33,673	12.84
Female	45,013	14.61	35,697	12.38	34,516	13.16
Rural	<u>218,982</u>	<u>71.10</u>	<u>217,708</u>	<u>75.48</u>	<u>194,018</u>	<u>74.00</u>
Male	113,694	36.91	113,610	39.39	100,132	38.19
Female	105,288	34.19	104,098	36.09	93,886	35.81

The sex ratio (number of males per 100 females) of the province showed a consistent prevalence of males in the three censal years – a sex ratio of 104.21 in 1970, 106.31 in 1975 and 104.93 in 1980. The focus of predomination of males lay in the rural areas where there were 107.98 males for every 100 females. In 1970 the rural sex ratio was 106.65 rising to 109.14 in 1975. The reverse was true in the urban areas where the females consistently outnumbered the males. Urban sex ratio slightly differed during the period in review – 97.56 in 1970, 98.05 in 1975 and 97.78 in 1980.

Figure 1 provides a picture of the distribution of the population by age group. As observed, a pyramid-like structure forms in the graph with the males and females below five years old forming a broad base which gradually declines as the group grows older, and the 80 years old and over forming the apex. This is particularly conspicuous in the rural areas where both the male and female population decrease as the persons grow older. Urban males display a disagreement to the pyramid configuration, with the 5-9 years old outnumbered by the 10-14 years of age. Likewise, the 65-69 year-old urban females outnumber the 60-64 age group (see Table 2).

A BRIEF ANALYSIS

AGE COMPOSITION

The population has grown older, as persons in the younger age group (0-14 years) steadily declined over the last 10 years. From 49.69 percent of the total population in 1970, its corresponding proportion went down to 48.33 percent in 1975 and decreased further to 46.42 percent in 1980. The productive age group (15-64 years) compose one-half (50.63%) of the provincial population, up from 47.96 percent in 1970 to 49.27 percent in 1975. For the older age group (65 years and over) the increase was minimal from 2.35 percent in 1970 to 2.40 percent in 1975 and 2.95 percent in 1980. Consequently, the median age rose from 15 years in 1975 to 16 years.

With the increase of persons in the productive age group, the dependency ratio went down from 102.96 to 97.52, decreasing by 5.44 from the 1975 ratio. Rural dependency ratio was markedly higher than the urban ratio, 107.75 for the former and 87.82 for the latter. Of the urban population 42.77 percent belonged to the younger age group; 53.24 percent, to the productive age group and 3.99 percent, to the older age group. In the rural areas,

A BRIEF ANALYSIS

however, the proportion of the youth population was higher at 47.91 percent; correspondingly, the proportion of persons in the productive age group was 49.57 percent and in the older age group, 2.52 percent.

Below are comparative figures showing the age composition of the population in the three censal years:

**TABLE B – AGE COMPOSITION OF THE POPULATION,
CAMARINES NORTE: 1970, 1975 AND 1980**

Age Composition	1980		1975		1970	
	Number	Percent	Number	Percent	Number	Percent
Total	<u>308,007</u>	<u>100.00</u>	<u>288,406</u>	<u>100.00</u>	<u>262,207</u>	<u>100.00</u>
0-14 years	142,990	46.42	139,384	48.33	130,279	49.69
15-64 years	155,941	50.63	142,100	49.27	125,764	47.96
65 years and over	9,076	2.95	6,922	2.40	6,164	2.35

A BRIEF ANALYSIS

MARITAL STATUS

Never married persons constituted 44.53 percent of the total population 10 years old and over, the proportion continuously going down during the past 10 years. Married individuals maintained an upward trend, from 47.68 percent in 1970 to 48.59 percent in 1975 and 51.30 percent in 1980. Married persons in the rural areas (52.71%) exceeded those in the urban areas by 4.64 percentage points. Approximately 0.38 percentage point had been added to the 1975 proportion of widowed persons as they aggregated 3.61 percent. Divorced or separated persons slightly increased by 0.13 percentage point, but composed only 0.50 percent of the population 10 years old and over.

The proportion of unmarried males showed a downward pattern, from 51.32 percent in 1970 to 50.88 percent in 1975 and 47.47 percent in 1980. Single females followed the same trend, declining from 45.57 percent to 44.53 percent between 1970 and 1975, to a low 41.48 percent in 1980. Widowed males slightly increased to 1.81 percent from 1.77 percent in 1975. Likewise, widowed females increased from 4.78 percent in 1975 to 5.48 percent in 1980. Males and females whose status were not stated made up a negligible percentage of the population (see Figure 2).

A classification of the population 10 years old and over by sex and marital status is shown in the following table:

**TABLE C – POPULATION 10 YEARS OLD AND OVER BY SEX AND MARITAL STATUS,
CAMARINES NORTE: 1970, 1975 AND 1980**

Sex and Marital Status	1980		1975		1970	
	Number	Percent	Number	Percent	Number	Percent
Both Sexes	<u>208,016</u>	<u>100.00</u>	<u>191,402</u>	<u>100.00</u>	<u>170,637</u>	<u>100.00</u>

A BRIEF ANALYSIS

HIGHEST GRADE COMPLETED

Higher learning is greatly valued in the province of Camarines Norte. This is evident in the increased proportion of the private household population 7 years old and over who reached the secondary and college levels, as well as those who earned academic degrees.

Compared to 1975, persons schooled in the secondary level increased by 2.66 percentage points (17.77% to 20.43%); those in the college level similarly gained 1.49 percentage points (3.64% to 5.13%) and academic degree holders, 0.61 percentage point (2.43% to 3.04%). Although composing the biggest group, elementary schoolers declined considerably from 68.49 percent to 66.25 percent. The proportion of persons without formal education likewise fell from 6.97 percent to 4.99 percent and those whose educational attainment was not stated, from 0.70 percent to 0.16 percent.

Males and females with elementary training were almost equal in proportion (66.19% males; 66.30% females). On the other hand, males who had reached the secondary level accounted for 21.60 percent, higher by 2.38 percentage points as compared to the females (19.22%). Among academic degree holders, however, the females outnumbered the males (3.83% against 2.28%).

Of the 155,940 persons with elementary schooling, 26.66 percent completed the first to the third grade and 13.82 percent, the fourth grade. Approximately 12.56 percent did not go beyond the fifth grade while 46.96 percent made it through the sixth or seventh grade. Of those who reached the secondary level, 65.23 percent finished only the lower years, while the rest (34.77%) graduated from fourth year. Less than one-sixth of the college undergraduates (14.41%) completed fourth year or higher; 85.59 percent finished third year college or lower.

The following table shows the distribution of the private household population 7 years old and over by highest grade completed in two censal years:

**TABLE D – PRIVATE HOUSEHOLD POPULATION 7 YEARS OLD AND OVER
BY HIGHEST GRADE COMPLETED, CAMARINES NORTE:
1975 AND 1980**

Highest Grade Completed	1980		1975	
	Number	Percent	Number	Percent
Total	<u>235,400</u>	<u>100.00</u>	<u>218,846</u>	<u>100.00</u>
No grade completed	11,753	4.99	15,254	6.97
Elementary	155,940	66.25	149,882	68.49
High school	48,097	20.43	38,894	17.77
College	12,071	5.13	7,958	3.64
Academic degree holder	7,156	3.04	5,328	2.43
Not stated	383	0.16	1,530	0.70

A BRIEF ANALYSIS

FIG. 3 – PRIVATE HOUSEHOLD POPULATION 7 YEARS OLD AND OVER
BY HIGHEST GRADE COMPLETED, CAMARINES NORTE: 1980

LITERACY

Camarines Norte had a high literacy rate with 90.62 percent of the private household population 10 years old and over, able to read and write. Male and female literacy rates were almost equal in proportion, 90.88 percent and 90.35 percent, respectively. Of the 188,258 literate persons, 51.13 percent were males and 48.87 percent were females.

The males turned out more literates than the females in the urban as well as in the rural areas-94.75 percent against 94.31 percent in urban areas and 89.29 percent against 88.49 percent in rural areas. The higher proportion of literates in urban (94.52%) than in rural (88.91%) areas may be attributed to the accessibility of more schools in urban areas.

A BRIEF ANALYSIS

FIG. 4 – PERCENTAGE LITERACY OF PRIVATE HOUSEHOLD POPULATION 10 YEARS OLD AND OVER BY SEX, URBAN-RURAL, CAMARINES NORTE: 1980

LANGUAGE OR DIALECT

Thirteen languages and dialects were reported spoken in the 12 municipalities of Camarines Norte. Bicol, supposedly the native dialect of the province, is second only to Tagalog. Of the total private households in the province, 60.43 percent generally speak Tagalog and 39.02 percent, Bicol. The remaining 0.55 percent speak Cebuano (0.23%), Lineyte-Samamon or Waray (0.16%), Chinese (0.04%) and one of eight other dialects (0.12%).

It is observed that majority of the households in 6 municipalities along or near the border of Quezon province generally speak Tagalog while majority of the households in the other 6 municipalities near Camarines Sur generally speak Bicol (Table 7).

GAINFUL OCCUPATION

Less than half of the private household population 15 years old and over (49.48%) are engaged in gainful occupations. As may be expected, the biggest group of gainful workers are agricultural, animal husbandry and forestry workers, fishermen and hunters, account-

A BRIEF ANALYSIS

ing for 58.81 percent of the total gainful workers. Production and related workers, transport equipment operators and laborers, making up 17.39 percent, trail far behind (Table 8).

Although the agricultural group has always topped the list, the latest figure is lower by 2.86 percentage points lower compared to 1975 which is higher by 6.90 percentage points than the 1970 figure (54.77%). An up and down trend is also observed for production workers which gained 1.44 percentage points between 1975 and 1980, after losing 4.89 percentage points between 1970 and 1975 – from 20.84 percent to 15.95 percent. Sales workers, while remaining third at 6.83 percent, slightly dropped from 7.24 percent. Service workers place fourth at 6.36 percent while professional, technical and related workers follow closely at 5.65 percent. Meanwhile, clerical and related workers have steadily grown from 2.22 percent to 3.06 percent as administrative, executive and managerial workers slightly declined from 0.93 to 0.57 percent. Workers not classifiable by occupation account for 1.33 percent.

Comparative figures on the proportion of workers engaged in various gainful occupations from 1970 to 1980 are shown in the succeeding table.

**TABLE E – GAINFUL WORKERS 15 YEARS OLD AND OVER
BY MAJOR OCCUPATION GROUP, CAMARINES NORTE:
1970, 1975 AND 1980**

Major Occupation Group	1980		1975		1970	
	Number	Percent	Number	Percent	Number	Percent
Total	81,529	100.00	72,047	100.00	75,242	100.00
Professional, technical and related workers	4,605	5.65	3,648	5.06	4,912	6.53
Administrative, executive and managerial workers	464	0.57	672	0.93	999	1.33
Clerical and related workers	2,495	3.06	1,601	2.22	1,654	2.20
Sales workers	5,572	6.83	5,215	7.24	4,711	6.26
Service workers	5,189	6.36	4,429	6.15	5,632	7.48
Agricultural, animal husband- ry and forestry workers, fishermen and hunters	47,944	58.81	44,431	61.67	41,209	54.77
Production and related work- ers, transport equipment operators and laborers	14,174	17.39	11,492	15.95	15,682	20.84
Workers not classifiable by occupation	1,086	1.33	559	0.78	443	0.59

A BRIEF ANALYSIS

INDUSTRY

Agriculture, fishery and forestry dominate the industry group with about three-fifths (60.52%) of the total gainful workers. Agricultural crop producers chiefly compose this group (78.06%) with 18.11 percent in fishery and 2.71 percent in forestry. Very few are engaged in agricultural services (0.64%) and in the production of livestock, poultry and other animals (0.48%). Only 14.00 percent of the gainful workers are into community, social and personal services. Three main sources of jobs for those engaged in this industry group are personal and household services (37.83%), education services (27.16%) and public administration and defense (19.16%). Wholesale and retail trade contribute 6.68 percent and manufacturing, 4.95 percent. Transportation, storage and communications account for 4.88 percent; construction, 3.94 percent; mining and quarrying, 2.47 percent and finance-

A BRIEF ANALYSIS

ing, insurance, real estate and business services, 1.38 percent. Electricity, gas and water (0.46%) and activities not adequately defined (0.72%) contribute the smallest share of gainful workers (Table 9).

**FIG. 6 – GAINFUL WORKERS 15 YEARS OLD AND OVER
BY MAJOR INDUSTRY GROUP, CAMARINES NORTE: 1980**

MIGRATION

Majority of the private household populace aged 5 years and over (93.98%) resided in the same municipality where they had lived on May 1, 1975. About 3.11 percent were living in another municipality within the province (intra-provincial migrants), while 2.84 percent were residents of another province (inter-provincial migrants). Only a negligible percentage (0.07%) were residing in foreign countries. The females (1.60%) slightly surpassed the males (1.51%) in intra-provincial migration while both sexes have equal proportions at 1.42 percent in inter-provincial migration.

TYPE OF BUILDING

A great majority of the 53,150 households (93.14%) are occupying single houses. The remaining 6.86 percent live in other types of structures, viz: duplex, 1.20 percent; apartment/accesoria/condominium/row house, etc. 0.84 percent; improvised such as barong-ba-rong, 3.72 percent; commercial/industrial/agricultural building, 0.81 percent; hotel/lodging

A BRIEF ANALYSIS

house/dormitory, etc. 0.06 percent; other housing unit such as natural shelter, 0.14 percent; institutional (hospital, convent, school dormitory, etc.), 0.06 percent and other collective living quarters, 0.03 percent (Table 1).

Most of the households occupying single houses are in the rural areas (72.20%) while 27.80 percent are in urban areas. In contrast, a higher percentage of the households living in duplex structures are in the urban (83.57%) than in the rural areas (16.43%). Likewise, a greater proportion of the households living in apartment/accesoria/condominium/row house, etc. (82.41%) are in the urban areas with only 17.59 percent in the rural areas. More than four-fifths (84.92%) of the 431 households occupying commercial/industrial/agricultural buildings are urban dwellers, compared to only 15.08 percent rural dwellers. Two-thirds, or 66.67 percent of the households in hotel/lodging house, dormitory and similar structures are urban residents while one-third, or 33.33 percent are rural dwellers. One-half (50.00%) of those living in institutional buildings (hospital, convent, school dormitory, etc.) are in the urban areas and 50.00 percent, in the rural areas. On the other hand, all of the households living in other collective living quarters (military camp, etc.) are located in the rural areas. Three-fourths (75.96 %) of the occupants of improvised structures (barong-barong) also reside in the rural areas and only 24.04 percent are in the urban areas.

It is interesting to note that the proportion of households living in single houses, duplex, apartment or accesoria, and commercial/industrial/agricultural buildings have slightly increased while those in improvised structures correspondingly decreased.

The comparative table that follows presents a picture of the housing conditions in Camarines Norte during the two censal years 1970 and 1980:

**TABLE F – NUMBER OF HOUSEHOLDS IN OCCUPIED DWELLING UNITS
BY TYPE OF BUILDING, CAMARINES NORTE: 1970 AND 1980**

Type of Building	1980		1970	
	Number	Percent	Number	Percent
Total	<u>53,150</u>	<u>100.00</u>	<u>41,520</u>	<u>100.00</u>
Single house	49,504	93.14	38,312	92.27
Duplex	639	1.20	404	0.97
Apartment/accesoria/condominium/ row house/etc.	449	0.84	200	0.48
Improvised (barong-barong)	1,976	3.72	2,320	5.59
Commercial/industrial/agri- cultural	431	0.81	280	0.68
Other housing unit: natural shelter, boat, etc.	76	0.14	—	—
Hotel, lodging house, dormi- tory, etc.	30	0.06	—	—
Institutional (hospital, convent, school dormitory, etc.)	30	0.06	4	0.01
Other collective living quarters	15	0.03	—	—

A BRIEF ANALYSIS

TYPE OF OCCUPANCY

Of the 53,150 households in Camarines Norte, 46,634 or 87.74 percent are owners of their dwelling units. The rest of the households are distributed as follows: tenant/lessee, 6.67 percent; subtenant/sublessee, 0.20 percent and rent free, 5.39 percent. Nearly three-fourths (73.39%) of the owner-occupants are in the rural areas and only 26.61 percent in the urban areas (Table 1).

CONSTRUCTION MATERIALS OF ROOF AND OUTER WALLS

Only 24.54 percent of the total number of households occupy dwelling units built with roof of strong materials (galvanized iron, tile/concrete/brick/stone and asbestos) and 75.46 percent, with roof of light materials (cogon or nipa, makeshift or salvaged materials and other materials such as anahaw, etc.). Households occupying dwelling units with roof of strong materials constitute 42.22 percent in the urban areas and 17.23 percent in the rural areas. A higher percentage of the urban (57.78%) and the rural households (82.77%) live in dwelling units with roof of light materials.

By type of construction materials of outer walls, however, 61.26 percent of the households occupy dwelling units constructed with outer walls of strong materials (galvanized iron/aluminum, tile/concrete/brick/stone, wood/plywood, mixed tile/concrete/brick/stone/wood/plywood, and asbestos) and 38.74 percent, of light materials (bamboo/sawali, cogon/nipa, makeshift/salvaged materials, and others such as anahaw).

In the urban areas, most of the dwelling units are constructed with outer walls of strong materials (76.95%) and only 23.05 percent are of light materials. In the rural areas, the proportion of dwelling units with outer walls of strong materials is slightly higher (54.77%) than those with walls of light materials (45.23%).

YEAR BUILT

It will be noted from Table 2 that almost one-half (49.21%) of the total structures were constructed during 1976-1980; 21.73 percent were built in 1971-1975; 19.22 percent, in 1961-1970; 7.32 percent, in 1951-1960 and 1.60 percent, in 1942-1950. Less than one percent (0.92%) were built before World War II.

FLOOR AREA OF DWELLING UNIT

Majority of the households (64.98%) live in dwelling units with floor area of less than 30 square meters. Approximately 23.72 percent occupy dwelling units with a floor area of 30-49 square meters; 4.51 percent, 50-69 square meters and 3.08 percent, 70-99 square meters. A few households (2.06%) have spacious dwelling units with a floor area of 100-149 square meters and only 1.65 percent, 150 square meters and over (Table 3).

TENURE OF OWNER-OCCUPANT WITH RESPECT TO THE LAND

Less than one-half of the households who own their dwelling units also own the land (40.93%) where the structure is erected. The type of tenure of other households are as follows: 14.88 percent, lessee or sublessee; 16.90 percent, farm lessee or agricultural tenant of landowner; 9.70 percent, other legal tenure and 17.59 percent, no tenure such as squatter, etc. (Table 4).

A BRIEF ANALYSIS

SOURCE AND USE OF WATER SUPPLY

Census results show that the dug well is the most common source of water supply of the households in Camarines Norte whether for drinking (45.03%), for kitchen use (49.15%), or for washing clothes (31.95%). Next to dug well, the inhabitants use water from the faucet, community water system for drinking (31.75%), for kitchen use (25.26%), and for washing clothes (19.55%). A good proportion of the households depend on the spring as their source of water supply for drinking (14.77%) and for kitchen use (13.31%). However, only 9.10 percent depend on this source for washing clothes. A sizeable proportion of the households (31.45%), especially in the rural areas, still utilize water from lakes, rivers, streams and the like, for washing clothes. Other households make use of the tubed or piped deep well for drinking (4.43%), for kitchen use (5.89%) and for washing clothes (4.77%). Water from tubed or piped shallow well is used by 3.76 percent of the total households for drinking; 4.46 percent, for kitchen use and 3.14 percent, for washing clothes (Table 6).

KIND OF LIGHTING FACILITIES

Kerosene is still the most common type of lighting used with 71.41 percent of the total households using it. A little more than one-fourth (26.04%) use electricity; 1.77 percent, liquefied petroleum gas (LPG); 0.18 percent, oil and 0.60 percent, other kinds of lighting facilities. Most of the urban households use electricity (61.17%) and 37.54 percent, kerosene. A few use liquefied petroleum gas (0.87%), oil (0.10%) and other kinds (0.32%). On the other hand, majority of the rural households (85.41%) use kerosene. Only 11.52 percent use electricity and 2.14 percent, liquefied petroleum gas. Users of oil (0.21%) and other (0.72 %) constitute a minor percentage (Table 5).

COOKING FUEL

As in 1970, the most common kind of cooking fuel used in the province is wood or charcoal, with 87.89 percent of the total households using it. Kerosene is used by 6.35 percent; liquefied petroleum gas, by 4.69 percent; electricity, by 0.73 percent and other, by 0.34 percent.

The common use of wood or charcoal is noted for both urban (78.99%) and rural households (91.57%). Liquefied petroleum gas is used more in urban areas (10.90%) than in rural areas (2.12%) for cooking (Table 8).

TOILET FACILITIES

Water-sealed sewer or septic tank and water-sealed other depository toilet facilities are used by a small proportion of the total households, 17.17 percent and 12.03 percent, respectively. One-fifth, or 20.08 percent use the closed pit (antipolo, etc.) and 27.01 percent, the open pit. While other types such as the pail system, etc. are used by only 0.81 percent, 22.90 percent are still without toilet facilities.

Urban households widely use the water-sealed sewer/septic tank (42.08%) and the water-sealed other depository types (20.78%) while only 6.88 percent of the rural households use the former and 8.41 percent, the latter. The closed pit is used by a considerable proportion of the urban and rural households – 15.31 percent and 22.06 percent, respectively. The open pit is far more popular among the rural (34.67%) than among the urban households (8.46%). Although 27.32 percent of the rural households lack toilet facilities, 12.21 percent of the urban households share this problem.

A BRIEF ANALYSIS

OWNERSHIP OF RADIO, TELEVISION SET AND REFRIGERATOR/FREEZER

In 1980, three-fifths (60.58%) of the total households own radios, compared to 42.78 percent in 1970. However, television sets and refrigerators or freezers are still luxuries for most of the households in the province, with only 1.07 percent and 5.35 percent, respectively, owning these appliances.

Table 9 shows that ownership of radio is very common among the urban as well as the rural households with 70.27 percent for the former and 56.58 percent for the latter. More urban than rural households own television sets (2.72% against 0.39%) and refrigerators or freezers (13.72% compared to 1.89%).

(If in this city, specify school name, etc.)	36. How many children have been born and are still alive?	36. How many of these children were born after 1979?	36. Was the mother married when the child was born?
Who are the other members of this household?	37. Son of head of household	37. Son of head of household	37. Male	37. Age on last birthday	37. Single	37. What country is the person's country of birth?	37. At the time of birth, where was the person's residence?	37. What city/municipality and province was this person born in? (Specify date of birth, if known, e.g., May 1, 1915)	37. Yes	37. Yes	37. Did the person attend school at any time from 1979 to 1980?	37. What is the highest grade year completed?	37. What is the usual occupation and industry? (Specify occupation and industry, e.g., Farmer, Teacher, etc.)				

H-1 to H-4 are to be asked only of the first sample household in every building (Repeat entries for other sample households in this building)

H-1 What type is this building house?

22

1 Simple House

2 Duplex

3 Apartment/Apartment/Condominium/Row house/etc.

4 Improved (Rural) Housing

5 Commercial/Industrial/Agricultural

6 Other housing unit (natural shelter, hut, etc.)

7 Hotel, lodging house, dormitory, etc.

8 Institutional (hospital, convent, school, dormitory, prison institution)

9 Other collective living quarters (refugee camp, logging camp, military camp, etc.)

H-2 What construction material is the roof made of?

23

1 Galvanized Iron/Aluminum

2 Tile/Concrete/Brick/Stone

3 Asbestos

4 Cogen/Nipa

5 Makech/Salvaged Materials

6 Other (bamboo, etc.)

H-3 What construction material are the outer walls made of?

24

1 Galvanized Iron/Aluminum

2 Tile/Concrete/Brick/Stone

3 Wood/Plywood

4 Mixed Tile/Concrete/Brick/Stone and Wood/Plywood

5 Asbestos

6 Bamboo/Sawah

7 Cogen/Nipa

8 Makech/Salvaged Materials

9 Other (bamboo, etc.)

H-4 When was this building/house built?

25

1 1980

2 1979

3 1978

4 1977

5 1976

6 1975

7 1961 - 1970

8 1951 - 1960

9 1942 - 1950

0 1941 or earlier

15 Rooms

H-6 What is the floor area of this dwelling unit in square meters?

27

1 Less than 30 sq. meter

2 30-49 sq. meters

3 50-69 sq. meters

4 70-99 sq. meters

5 100-149 sq. meters

6 150-199 sq. meters

7 200-249 sq. meters

8 250-299 sq. meters

9 300 sq. meters & over

H-5

H-6

26

27

H-7 How does this household occupy this dwelling unit?

28

1 Owner

2 Tenant/Leasee

3 Subtenant/Sublessee

4 Rent-free

H-8 (If household owns this dwelling unit) What is your tenure with respect to the land?

29

1 Owner

2 Lessee or sublessee

3 Farm lease/agricultural tenant of landowner

4 Other land tenure

5 No tenure (squatter, etc.)

6 Not applicable

H-9 What kind of lighting do you use?

30

1 Electricity

2 Kerosene

3 Liquefied Petroleum Gas (LPG)

4 Oil (vegetable, animal)

5 Other

H-10 What is the main source of your water supply - (Encircle only one for each use.)

31

For Drinking?

For Kitchen Use?

For Washing Clothes?

For Toilet?

Faucet, Other, Community Water System

At least, 5 of 20 ft. Tubed/piped deep well, pipes or 30 meters deep

Public

Tubed/piped shallow well, meters deep

Other

Tubed/piped shallow well, meters deep

Own Use

Tubed/piped shallow well, meters deep

Other

Dug well, improved (covered and no seepage from side)

Dug well, Other

Spring, improved (with tube pipe outlet)

Spring, Other

Rain

Lake, river, stream, irrigation, etc.

H-11 What kind of fuel do you use most of the time for cooking?

37

1 Electricity

2 Kerosene

3 Liquefied Petroleum Gas (LPG)

4 Wood, charcoal

5 Other

H-12 What kind of toilet facilities do you use?

38

1 Water-sealed, sewer/septic tank, used exclusively by household

2 Water-sealed, sewer/septic tank, shared with other households

3 Water-sealed, other depository, used exclusively by the household

4 Water-sealed, other depository, shared with other households

5 Closed pit (latrine, etc.)

6 Open pit

7 Other (pail system, etc.)

8 None

H-13 Do you have these appliances in working condition?

39

1 a. Radio

2 b. TV

3 c. Refrigerator/Freezer

CERTIFICATION

I HEREBY CERTIFY that the data set forth in this form were personally obtained by me in accordance with the rules and regulations promulgated by the National Census and Statistics Office.

Name of person accomplishing this form
(Printed Name & Sign)Title _____
Date _____ 1980

PERSONS TO BE ENUMERATED AS MEMBERS OF COLLECTIVE HOUSEHOLDS

1. HOTELS, LODGING HOUSES, DORMITORIES, ETC.

- a. Proprietor, manager and employees living in the establishment, except those living therein with their own families and those who usually go home to their respective families at least once a week.
- b. Permanent lodgers/boarders (those who have stayed or expect to stay for one year or longer) and those temporary lodgers/boarders who have stayed for six months or longer as of May 1, 1980 or have been away from their own families for the same period. However, exclude those who usually go home at least once a week.
- c. Lodgers/boarders who are not residents of the Philippines and who have been in the Philippines for one year or longer as of May 1, 1980, or expect to stay in the Philippines for one year or longer. However, exclude those who have temporary place of residence elsewhere in the Philippines to where they usually go home. Exclude also diplomatic representatives or UN, ILO or USAID officials who, like diplomatic representatives, are subject reassignment to other countries after their tour of duty in the Philippines, and members of their families.

2. HOSPITALS AND NURSES' HOMES

- a. All patients, including those just confined, in mental hospitals, leprosaria or leper colonies, pavilions of tuberculosis sanatoria where patients stay more or less permanently, and rehabilitation centers for drug addicts.
- b. Patients who have been confined for six months or longer as of May 1, 1980 in other kinds of hospitals and in wards for temporary confinement in tuberculosis sanatoria.
- c. Nurses in nurses' homes who do not usually go home at least once a week.
- d. Staff members and employees living in hospitals/nurses' homes, except those living therein with their families and those who usually go home at least once a week.

3. WELFARE INSTITUTIONS (Homes for the Aged and Infirm, Orphanage, Boys' Town, etc.)

- a. All inmates or wards, including those just confined.
- b. Staff members and employees living in the institutions, except those living therein with their families and those who usually go home at least once a week.

4. CORRECTIVE AND PENAL INSTITUTIONS

- a. All prisoners in national prisons and reformatories (welfareville).
- b. Prisoners and detainees in provincial or city/municipal jails who have been continuously confined for six months or longer, including confinement elsewhere, as of May 1, 1980, or those whose sentence is for six months or longer even if the sentence is on appeal.
- c. Staff members and employees living in the institutions except those living therein with their own families and those who usually go home at least once a week.

5. CONVENTS, NUNNERIES, SEMINARIES, AND BOARDING SCHOOLS

- a. Monks, priests, ministers, nuns, seminarians etc. However, priests or ministers of sects other than the Roman Catholic Church who live in the convent or house close to church or chapel with their own families are to be excluded (private households).
- b. Students in boarding schools (schools where students are required to stay in the school campus).
- c. Staff members, employees and helpers living in the premises, except those living therein with their own families and those who usually go home at least once a week.

6. MILITARY CAMPS AND STATIONS (PC, Army, Air Force and Navy): PMA

- a. Officers and enlisted men/draftees, except those who live in the premises with their own families and those who usually sleep most nights with private households or in hotels, lodging places or dormitories. Include those belonging to the unit in the camp or station who are away on military operation or mission or aboard naval vessels, except those whose families are living in the camp or station (their own families will report them).
- b. PMA cadets and trainees whose training is for six months or longer.
- c. Detainees who have been continuously confined for six months or longer, including confinement elsewhere, as of May 1, 1980.
- d. Civilian employees living in the camp or station, except those living therein with their own families and those who usually go home at least once a week.

7. LOGGING, MINING AND CONSTRUCTION/PUBLIC WORKS CAMPS; PLANTATIONS AND AGRICULTURAL/FISHERIES EXPERIMENTAL OR BREEDING STATIONS, ETC.

- a. Proprietor, manager, contractor and employees who do not live with their families in the premises and are supplied lodging (beddings, etc.) and/or meals by the company, firm, contractor or agency, except those who usually go home at least once a week.

8. OCEAN-GOING AND INTERISLAND/COASTAL VESSELS OR DEEP-SEA FISHING VESSELS

- a. Filipino crew members of ocean-going vessels (whose own families live in the Philippines) at port as of 12:01 A.M. May 1, 1980, except those who usually go home to their own families in the Philippines at least once every six months.
- b. Any crew member of interisland/coastal vessel or deep-sea fishing vessel at port on any day during the enumeration, if the crew member has no home other than the vessel.

9. REFUGEE CAMPS

- a. Filipino citizens working and living inside the camps.
